INFORMATION.

ADMISSION.

CANDIDATES for admission must present testimonials of good moral character, and if from another college, a letter of dismissal or recommendation.

Candidates for the Freshman Class will be examined in the grammar of the English, Latin and Greek languages, in Virgil, Sallust, Cicero's Select Orations, the four Gospels, Jacob's Greek Reader, (or an equivalent,) in Arithmetic and Geography.

Candidates for any other class will be examined in the studies previously pursued by said class.

It is very important that candidates should be thoroughly prepared, especially in grammatical and elementary knowledge.—Where they have more time than is requisite for such preparation, it is desirable, for obvious reasons, that they should not anticipate studies in the College course, but apply themselves to other studies.

Students not regular members of College, are allowed, as University Students, to prosecute any branches for which they are qualified, provided they attend three recitations daily, and conform in all other respects to the laws of College. On leaving College they receive certificates of character and scholarship.

Students from other Colleges, cannot enter later than the beginning of the third term of the Senior year.

Examinations for admission take place in presence of three officers. The regular times for such examinations are the two days immediately preceding Commencement, and the last two days of each College vacation.

PAYMENTS.

The College Bills are made out three times a year, and must be paid in advance. Students, unless from another College, pay for entrance into the Freshman Class, \$5; into the Sophomore Class,

\$7; into the Junior Class, \$9; into the Senior Class, \$12. No retrospective expense is incurred by entering in advance.

FISCAL GUARDIAN.

The Register acts, without charge, as fiscal guardian, for all students who deposit funds in his hands.

ANNUAL EXPENSE.

College Bills and Board in the Hall, from...\$108 00 to \$115

Fuel and Light,..... 8 50

Washing,..... 6 00 to \$8

Young men in straitened circumstances and of good character, are assisted more or less by the Trustees of the College, so long as they study and conduct in a satisfactory manner. The whole annual expense for tuition, board, fuel, lights, &c. &c. of Students so assisted, will not, where economy is used, exceed from \$60 to \$70 per annum.

RESIDENCE AND DISCIPLINE.

Students are expected to reside in the main buildings, which are occupied by the President and Professors, and their respective families. No student can reside elsewhere without special permission.

The discipline of the institution is moral and parental. Disgraceful punishments are not inflicted: but no young man who indulges in gaming, intemperance, or other vice, who is absent from his room at night, or who habitually neglects his studies, can be allowed to remain.

MERIT ROLL.

An accurate account of the delinquencies of every Student, and of his daily attendance, conduct and scholarship is kept. The result, determining his place on the Merit Roll, is reported at the close of each term, or more frequently, to his parent or guardian.

VACATIONS.

There are three vacations annually, one of six weeks, immediately after Commencement, on the 4th Wednesday in July; one of four or five weeks from the 1st of December, and one in April.—Students are expected to return to their friends during vacations.
